

# Cone

---

*Balance shaped by gravity.*

# Column

---

*The support, made explicit*

# Plinth

---

*A foundation that becomes the object.*

# Sphere

---

*Perfect form held in tension.*

# Cube

---

*A volume reduced to its essence.*

# Block

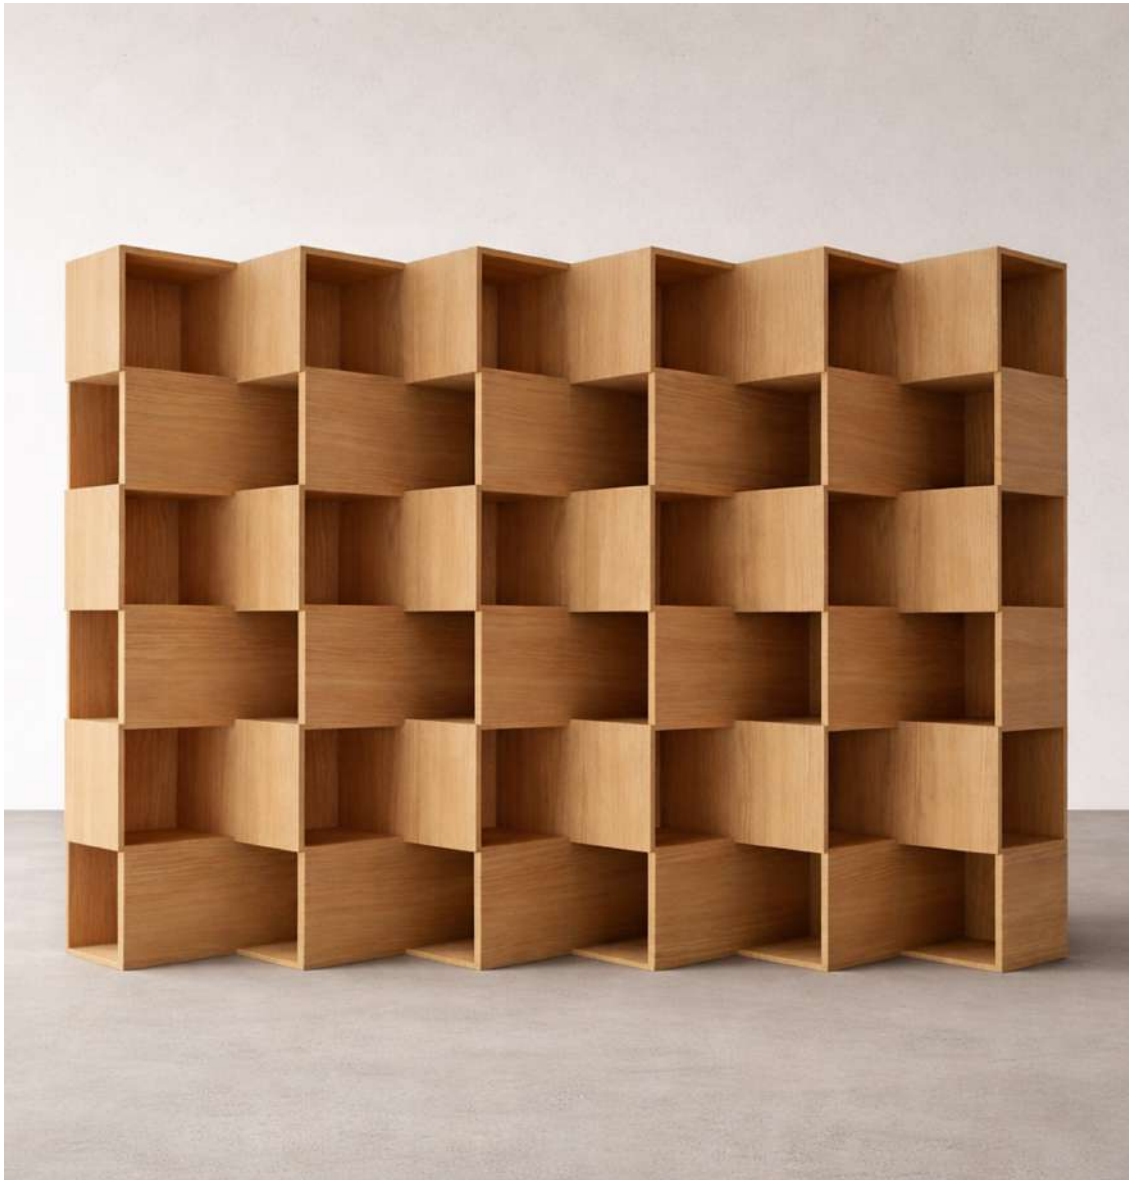

---

*Mass defined through repetition.*

# Arrae

---

*Order emerging from accumulation.*

# Where we stand

---

Cartoni designs objects that are not driven by trends, but by proportion, material, and time.

We believe objects should earn their place. Through use. Through ageing. Through presence.

Each piece is conceived as a complete object, where structure, material, and function are made visible rather than concealed.

Our work is not about decoration, but about intention. Objects that remain relevant because they are honest, restrained, and built to last.
